WiEnergy is an Energy Management System that will reduce the cost of energy to a customer by optimizing the methods used to control both processes and equipment to utilize energy more economically and efficiently.

WiEnergy is a customized solution that can range from a simple Remote Monitoring System to a completely engineered Automated Control System.

WiEnergy Control Panel

- Advance integration of Electrical, Electronics & Computer technologies
- Wireless GPRS/3G communication
- 24x7 Cloud Server Data logging
- Captures over 100 electrical measurements
- Modular solution
- Identification & Security features

Most advance Power Analyzer & Monitoring System
